

# PRODUCTS

# BUCKETS FOR EXCAVATORS

We cooperate with leading local manufacturers of mining buckets and attachments. We distribute all types of premium buckets, hydraulic couplers, thumbs and accessories. The construction attachments we supply are field-proven to provide quality, value and increased site safety.

Face Shovel buckets with payload capacity up to 30 m<sup>3</sup>. To protect the hull from damage and maximize the life of the attachment, various protection options are installed in the side and bottom structures.

Backhoe buckets for all brands and models of mining excavators. Capacities range from 4.0 m<sup>3</sup> for entry-level mining excavators (75-85 tons) up to 28 m<sup>3</sup> for excavators class PC5500, EX5500 (5600)

# HEAVY DUTY TRAILERS

Heavy duty trailers are designed for mobile (self-propelled) mining equipment or crane loaded payloads which primarily serve the mining industry for transporting shovels, drills, wheel loaders, wheel dozers and other equipment. Trailers are dedicated for off road, extreme duty applications.

Configurations vary from payloads of 40 tons through 300 ton capacities, with axle configurations ranging from 2 through 6 axles.

# INDUSTRIAL TRACTORS

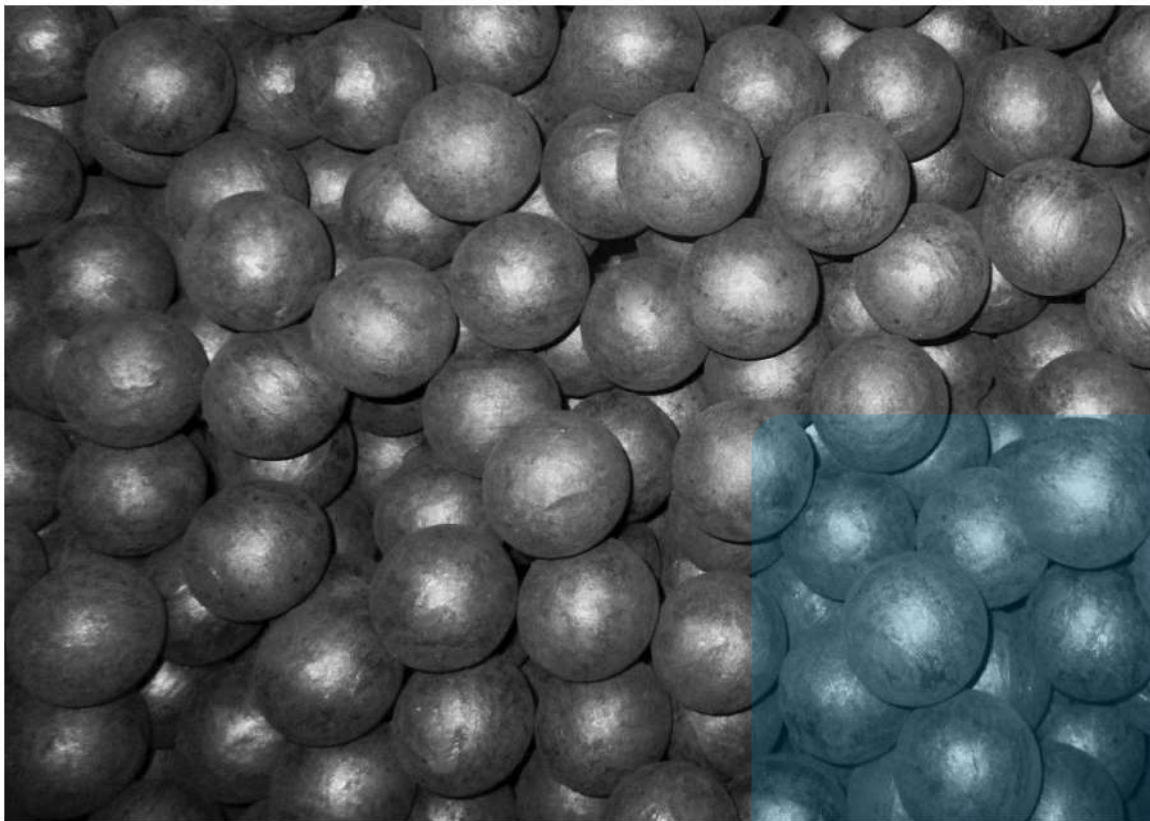

TransTechnoMarket is supplying tractors for wide range of applications. Industrial tractors are available in various designs and capabilities to meet the requirements of different industries. In addition to mining and construction sectors, it has applications in many other industries, such as wood industries, industrial plants, warehouses, and more.

# GRINDING BALLS

Grinding balls are used in the mining, coal, construction (for example, to make cement) and other industries: in ball mills as grinding bodies for grinding materials by impact, abrasion and crushing. Grinding balls for mining are made from various metals such as steel, hard metal and ceramic.

TransTechnoMarket offers grinding balls for ball mills with diameters from 30 to 120 mm of 1-4 hardness groups for the mining, coal, construction (cement manufacturing) and other industries.

We ensure regular supply of high quality grinding balls to our customers.

## SPARE PARTS FOR MINING EQUIPMENT

Our company supplies spare parts for a complete lineup of open pit mining equipment. From dump truck to drilling rig, from crushers to slurry pumps we can provide with high quality OEM spare parts for these equipment. Contact us to explore!
